# IMEPAC is for you!

We are waiting for you! It will be a pleasure to welcome you and share diverse cultures and customs. We will learn a lot together.

Our university exchange program has expanded, creating real possibilities for exchanging information, contributing to a better understanding between people and nations, respecting diversity and broadening world views, and always seeking the good of humanity.

Be part of this dream and **transform your story!**

# WHY CHOOSE IMEPAC?

You deserve the best, you deserve the IMEPAC!  
We have history and tradition, training thousands of successful professionals throughout the years; you will be next!

We began our activities in Araguari (MG) on September 24, 2001, opening new perspectives for education and the economic and social development of the municipality and region.

Over the years, we have been professionalizing and democratizing our management, making decisions based on the results of the institutional evaluation and communicating with the academic community, thus ensuring that progress is perceived and recognized as the fruit of their participation.

In 2019, we achieved the highest score (grade 5) in the overall assessment conducted by the Ministry of Education (MEC). Criteria such as structure, infrastructure and maintenance, IT resources, audiovisual resources, and faculty members, among others, were considered. We understand that closer ties with the community are fundamental to achieving our vision and fulfilling our mission, increasing our responsibility to maintain over 30 extension projects and activities. We are a serious institution committed to social inclusion, which is why we value accessibility throughout the campus and promote classes and services in Brazilian sign language. In addition, we believe that education is built from the ground up and that we must invest in future generations, which is why we founded and maintain two nursery schools in Araguari over 10 years ago that provide thousands of children with virtuous and refined education.

## **Make yourself at home!**

In Araguari, our headquarters house an outpatient center that provides free care with 37 medical specialties, a veterinary school clinic, a school farm, four "Expresso Saúde" buses, and a Center for Realistic Simulation of Medicine, exclusively affiliated in Brazil with the Center for Medical Simulation in Boston, which includes Harvard University. The only one in the country affiliated with [harvardmedsim.org](http://harvardmedsim.org)

IMEPAC  
ARAGUARI

OUTPATIENT

CENTER

DR. ROMES  
NADER

Our outpatient clinic gives you a taste of the profession if you are a health student. There, care is free and humanized for the population, and students participate actively.

The outpatient clinic now has 41 medical specialties and 42 consulting rooms, a fully modern and equipped theater, classrooms, a community center, and four reception areas for human and efficient patient care. Medical records are electronic, providing effective control of patient records and history: delivering health with technology and innovation is IMEPAC! Since it opened in 2016, the outpatient clinic has provided over 165,000 consultations.

### **Theory and practice go hand in hand!**

The school clinic is a laboratory for developing practical teaching, scientific initiation, and extension activities for students on our Veterinary Medicine degree course by providing services to the community.

This venture was one more way we found to strengthen our social commitment to the city of Araguari and promote teaching that provides a complete education, combining theory and practice.

Since April 2019, our clinic has provided the following services: general clinical care, surgery, hospitalization, and ultrasound examinations.

# SCHOOL FARM

Our School Farm was created to develop practical teaching, scientific initiation, and extension activities with students in the Veterinary Medicine course. There, our students can put into practice the knowledge they have acquired in the classroom, carrying out a series of procedures under the supervision of a veterinary professor. Sustainability is part of our daily lives. The School Farm produces the biogas that generates the energy that powers all the buildings at our institution in Araguari.

# EXPRESSO SAÚDE

In addition to the Outpatient Center and the Realistic Simulation Center, we also have itinerant clinic structures with four "Expresso Saúde" buses, which are adapted with three air-conditioned medical offices, one of which is for gynecological care and the others for medical and pediatric care. Our students, under the supervision of teachers, take humanized medical care to places where basic public health units do not yet operate, both in Araguari and neighboring municipalities and rural areas. This project has been running since 2018 and has already provided more than 50,000 consultations.

**CENTER FOR MEDICAL SIMULATION**

### **We anticipate the future; we value life!**

We have the largest in Latin America and the only one in Brazil exclusively affiliated with the Center for Medical Simulation in Boston, which includes Harvard University. The only one in the country affiliated with [harvardmedsim.org](http://harvardmedsim.org)

Our Realistic Simulation Center has more than 2,000 m<sup>2</sup> of built area, faithfully simulating the hospital environment. It has a 12-bed ward and a multidisciplinary operating room, which provide students with a unique experience in medical training.

Our space also houses modern, interactive classrooms and a large living area. Simulated environments: surgical center, obstetric center, adult ICU, pediatric ICU, emergency room, infirmary, house for home care, and outdoor space with an ambulance.

### **Health combined with humanization.**

The future health professional is in direct contact with the patient and the profession's challenges. A learning opportunity for the student and more health for the population. The technology used in the hospital complex will amaze everyone because the equipment and apparatus used are imported from the best companies in the world.

There are 30,000 m<sup>2</sup> of built area in a super modern structure with more than 300 beds, 19 operating rooms, 40 ICU beds, 3 humanized delivery rooms, an imaging center, a complete, state-of-the-art clinical analysis laboratory, a pneumatic post office with 21 stations, and the only hospital in the Triângulo Mineiro with a Helipad. It is the perfect opportunity to carry out and improve hospital practices and will soon have various medical residency programs.

**Partnership with  
SAMU - Mobile Emergency  
Care Services.**

Our students have the opportunity to work as interns with the entire SAMU base team and, together, provide urgent and emergency care to the population.

A photograph of a hospital hallway. In the foreground, a blue and white gurney is parked on the left. In the background, several healthcare workers in green scrubs are visible, some standing near a doorway and others near a sink. The hallway is brightly lit with recessed ceiling lights. The text 'Work at the UPA - Emergency Care Unit' is overlaid in yellow boxes on the right side of the image.

## Work at the UPA - Emergency Care Unit

In partnership with the Araguari City Hall, our students conduct supervised practice in this unit, providing different types of care and enabling diversity in learning.

# CHOOSE YOUR COURSE AND COME TO IMEPAC!

## **Here, you have plenty of options!**

Today, we have fourteen courses in operation, preparing highly trained professionals and placing them at the top of the job market.

Most of our professors are masters and doctors. We are a reference in teaching, technology, and innovation.

### **Bachelor's degree:**

- Administration
- Agronomy
- Accounting Sciences
- Law
- Physical Education
- Nursing
- Civil Engineering
- Pharmacy
- Hospital Management
- Medicine
- Veterinary Medicine
- Psychology
- Physiotherapy
- Biomedicine

### **Licentiate Degree:**

- Physical Education
- Pedagogy

### **Technology Degree**

- System Analysis and Development

### **Technician (High School Level)**

- Nursing Technician

### **Graduate studies**

- Civil Procedure Law
- Education and Technology
- MBA in Controllershship and Tax Management
- MBA in Business Management
- Active Teaching-Learning Methods in Higher Education in the Health Area

An aerial photograph of a multi-lane highway curving through a landscape of rolling hills and green fields. The sun is low on the horizon to the right, creating a warm, golden glow and lens flare effects. Several vehicles, including a white truck and a blue car, are visible on the road. The text "LOCATION AND REGIONAL BENEFITS ARAGUARI" is overlaid in large, white, bold, sans-serif capital letters across the center of the image.

# LOCATION AND REGIONAL BENEFITS ARAGUARI

## **We are privileged, as here you will be in the heart of Minas Gerais!**

We are located in Araguari, which is known as "the smiling city," an important municipality in the Triângulo Mineiro and Alto Paranaíba, which spreads 2,729.508 km<sup>2</sup>, with 1,262 km<sup>2</sup> of urban area and 1,481 km<sup>2</sup> of rural area.

Araguari is the 18th largest economy in Minas Gerais State, with a population of 121,000 inhabitants (precisamos verificar com IBGE) and strategically located on the São Paulo-Brasília axis, interconnected to the entire country through highways and railroads.

### **You deserve well-being and comfort!**

The city has a privileged urban layout, with wide and well-paved streets and avenues and tree-lined squares located at strategic points throughout the city, offering leisure and quality of life to the entire population.

### **Move with freedom!**

Araguari is logistically privileged, located 30 km from the second-largest airport in Minas Gerais. It is a quiet city with great leisure options like bars, restaurants, and cultural events. It's a city brimming with a safe and quiet nightlife.

### **You need to have fun!**

Well situated in the Triângulo Mineiro, Araguari is close to the main cinema chains and three shopping malls. Do you like adventure? Araguari is your place! The city is surrounded by waterfalls and natural parks where you can practice abseiling, zip-lining, hiking, wakeboarding, and camping. The predominant climate is high-altitude tropical, with a rainy season (from October to April) and a dry season (from May to September). The summer is relatively hot, with an abundance of rain, December being the wettest month.

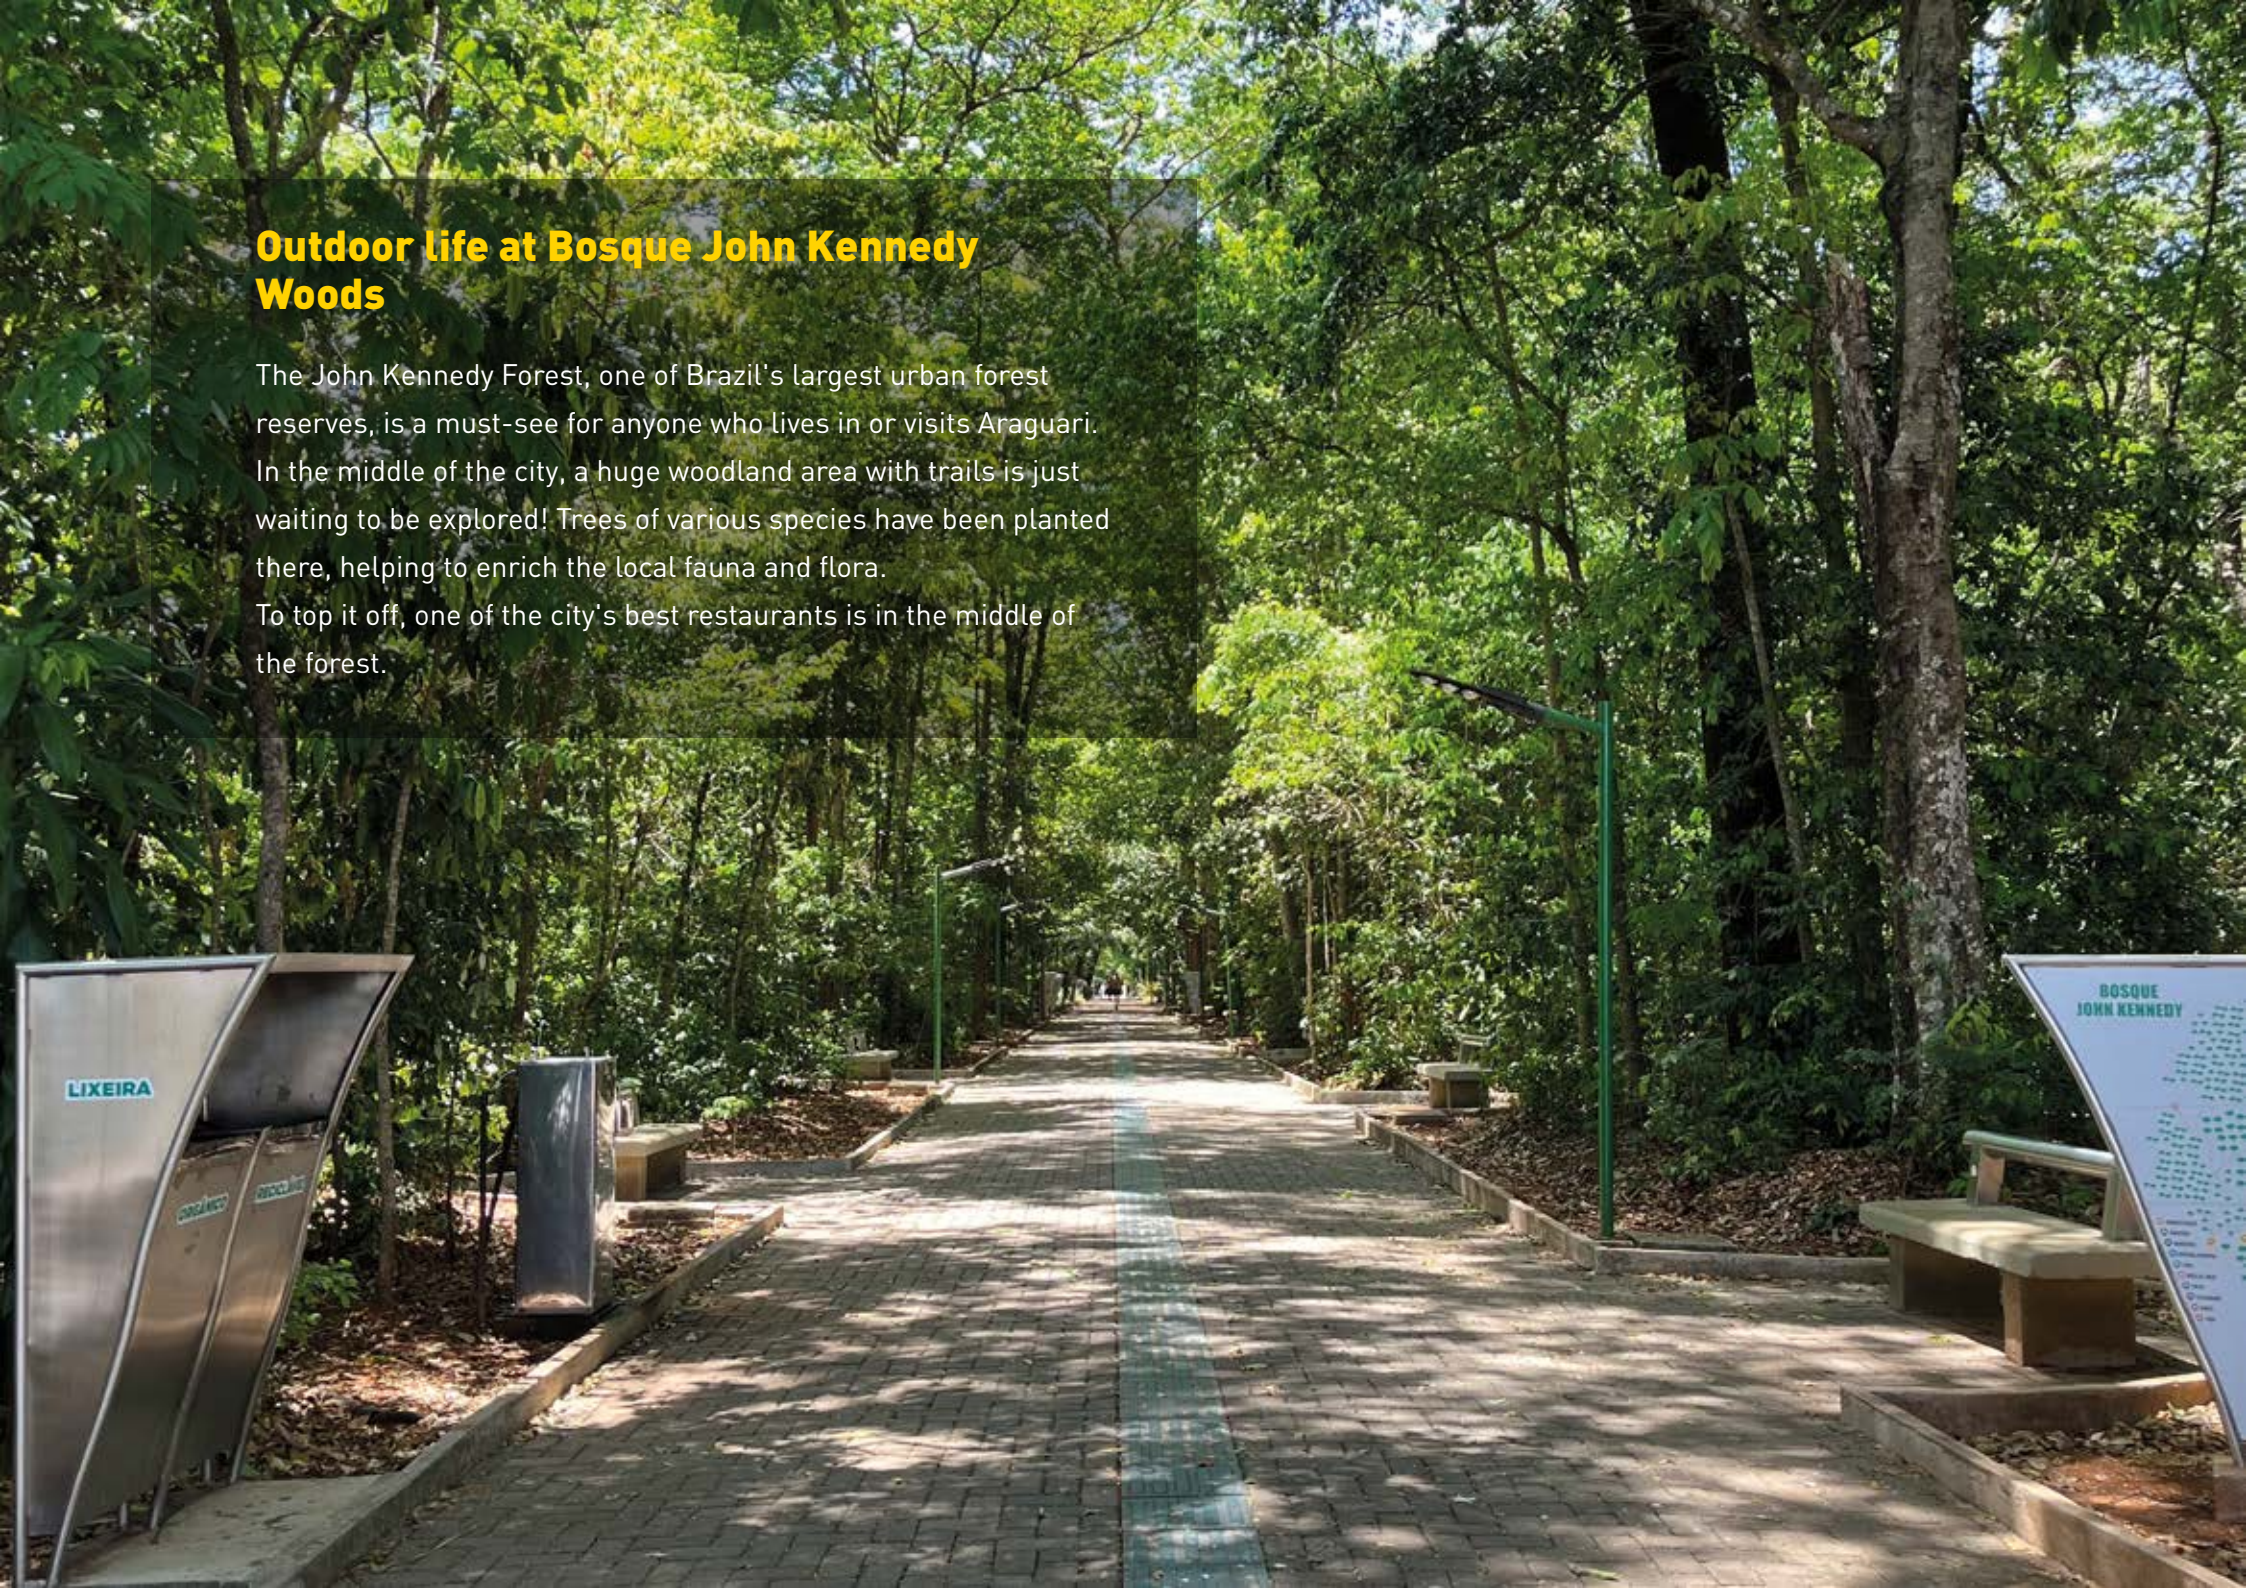

# TOURIST ATTRACTIONS

## Outdoor life at Bosque John Kennedy Woods

The John Kennedy Forest, one of Brazil's largest urban forest reserves, is a must-see for anyone who lives in or visits Araguari. In the middle of the city, a huge woodland area with trails is just waiting to be explored! Trees of various species have been planted there, helping to enrich the local fauna and flora. To top it off, one of the city's best restaurants is in the middle of the forest.

## Fill your luggage with stories at the Araguari Railway Museum

The Araguari Railway Museum is a rich cultural heritage of the municipality. The building, which also houses the city hall, has a collection of more than a thousand pieces that retrace the history of the Goiás Railroad and the Mogiana Railroad Company. Period photos, clothing, tools, and a whole host of other objects illustrate the veritable archaeology of the region's railways.

## **The Cachoeira das Irmãs Waterfall**

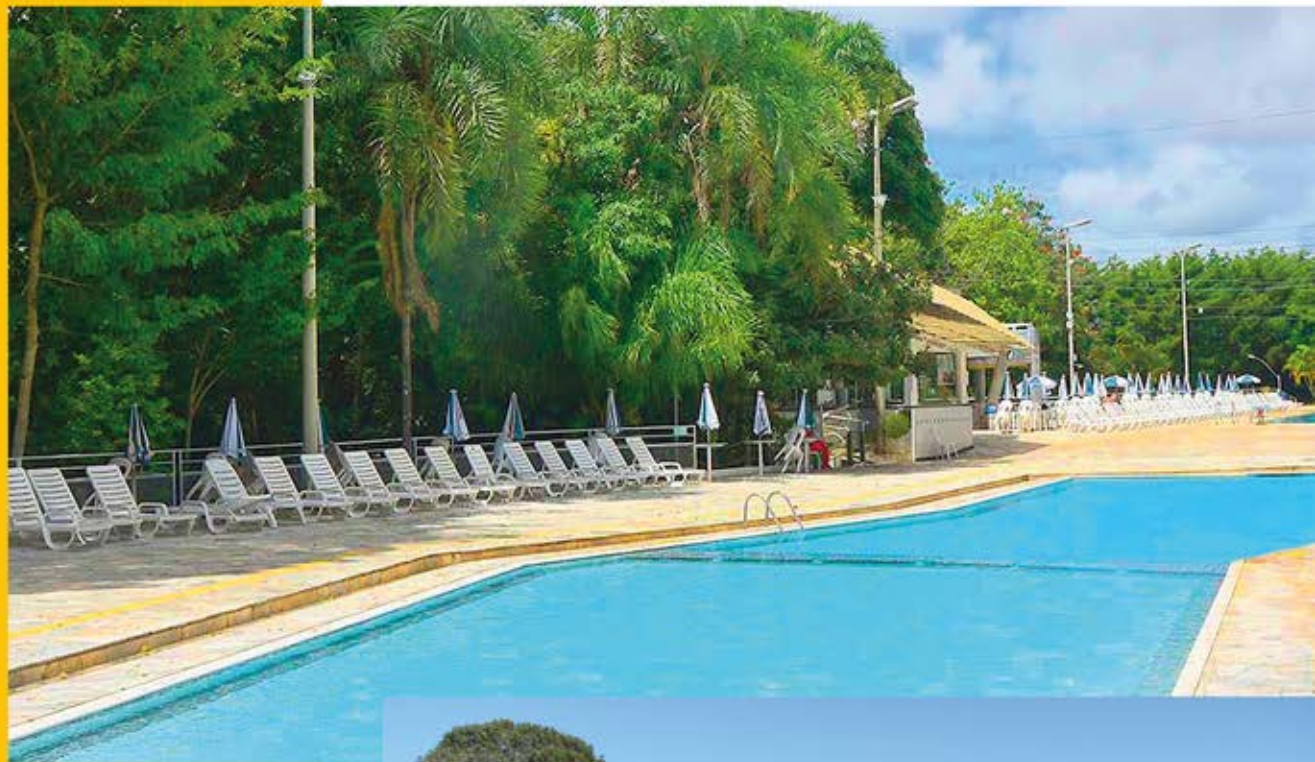

### **Be in touch with nature!**

Cachoeira das Irmãs is 20 km from downtown Araguari, a municipality with over 100 cataloged waterfalls. The exuberant 42-meter waterfall falls into a deep pool suitable for swimming. You can even see a breathtaking rainbow at certain times of the day! The trail to reach this area is noticeably quiet, with the possibility of parking at a small bar just 2 km from the site.

## **Pica-Pau Country Club** **Your space for sport and leisure!**

The Pica-Pau Country Club has been in Araguari for 54 years and always stood out in the region as a reference for sport and leisure. Its structure is incredible and provides access to nine clay tennis courts, five indoor soccer courts, a multi-sports gymnasium, a snooker arena, two indoor and heated swimming pools, a water park, a dam, an official Olympic swimming pool, two recreational swimming pools, as well as two large party rooms and 27 kiosks with barbecue grills distributed around the Club's large woodland.

An aerial photograph of a densely populated city at dusk. The sky is a deep blue with scattered clouds and a small, bright moon in the upper right. A prominent yellow banner with white text is overlaid on the upper portion of the image. The city below shows a grid of streets, numerous buildings, and green spaces.

**HERE IS YOUR PLACE!**

- Araguari is **among the 10 cities** that generate the most jobs in Minas Gerais.
- It is the **13th best city** to live in Minas Gerais.
- It is the **third largest city** in the Triângulo Mineiro.
- It is the **largest meat exporter** in Minas Gerais.
- It has the **largest juice factory** in Brazil.
- It is the **largest tomato producer** in Minas Gerais.
- It is the **largest producer of industrial passion fruit** in the country.
- It is the **country's irrigated coffee capital and one of the largest in the world.**
- It owns LD Celulose, one of the **largest dissolving pulp mills in the world.**
- It has the Sagrada Família University Hospital, **one of the country's largest and most modern hospitals.**
